

Multi-Function Moisture Meter

M-700

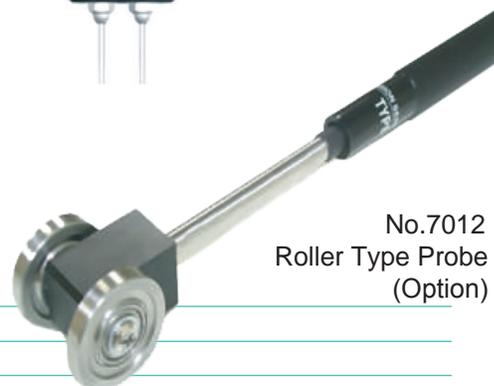

□ CE □ RoHS

Features :

- Built-in multi-function
- Suitable different type of probes
- 8 type of wood calibrations scales
- Data-Hold, Max. / Min
- Built-in calibration
- Easy to operate, Long-term stability

No.7011
Twin Electrodes
Type Probe

No.7012
Roller Type Probe
(Option)

Applications :

Woods, Bamboos, Building materials,
Apply a reference value to a moisture,
levels for: Leather, Paper Soil, Ceramics,
Medication, Powders, Cement...etc.

Specifications of M-700

Measurement Range (% WME)	5.5 ~ 99.9% (Digital LCD Display)
Accuracy (at 25°C)	±1% (tiny difference depends on testing materials)
Resolution	0.1%
Operating Range	-10 ~ +50°C (with temperature compensation)
No. of wood calibration scales	8 scales selectable
Sampling rate	Approx. 1 reading / sec.
Main Functions	Auto/Manual turn off, Hold , Record Max / Min, Built-in Calibration, Wood Calibration Scales, Low Battery warning.
Power Supply	9V Battery × 1 pc or AC Adaptor (option)
Battery Life	Approx. 180 hours (continues)
Dimensions	Meter 168 × 73 × 33 mm (6.6 × 3.0 × 1.3 inch)
	Probe (No. 7011) L : 120 mm, Cable : 1 meter
Weight	Approx. 200g, (7.0 oz) including battery
Accessories	<ul style="list-style-type: none"> • Twin electrodes type moisture probe (No.7011) • Protecting cap (No.703M) • Latching carrying case (No.755C) • Operation manual (With wood calibration scales)

※Specifications are subject to change without notice.

Option Accessories *About features of moisture probes, please refer to page 14.

No.7011	Twin electrodes type moisture probe
No.7012	Roller type moisture probe
No.7013	Deep insert type moisture probe
No.7014	Sword type moisture probe
No.7017	Heavy puncture type moisture probe
