

SI-AQ-INCUBA

The Latest in Incubator Monitoring and Real-Time Data-Logging for Air Quality Analysis for Incubators

Accurate / Reliable / Fast

- CO₂ Measurement Range of (0 - 5%, 0-10%, 0-20%)
- Relative Humidity and Temperature
- Barometric Pressure
- Real-time Data-Logging
- Active Internal Sampling Pump
- User Friendly Interface
- Large Internal Memory (2020)
- Long Lasting Rechargeable Battery
- Protective Magnetic Hands-Free Boot
